Allowable Subject Matter

1. Claims 1-62 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1 and 32, the claims have been amended to overcome the prior arts. Claims 1 and 32, as amended, recite a geo-location tool that is operable to "estimate bandwidth parameters for a geo-location area on a per service class basis based on the data" and an allocation engine operable to "allocate bandwidth in the geo-location area on per service class basic based on its bandwidth parameters." The closest prior arts, Egner et al (US 6223041) and Obhan (US 6366780), either singularly or in combination, fail to suggest or disclose the amended limitation mentioned above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
